Annie lived on a
mountain.

She loved hiking in the summer and playing in the snow in the winter.

Her favorite thing to do
was watch the birds and
feed them.

When she watched the
birds, she imagined
herself flying.

Sometimes her friends teased her, because she always wanted to be outside.

Usually they agreed with her and wanted to play outside too though.

Annie's favorite time of day was night time. She loved looking at the stars before sleep, and would make a wish before she fell asleep.

Annie would wish to
visit her Angel family.

In her dreams she
would fly in the clouds.
She felt happy, joyful
and had so much fun .

Sometimes she would
hear prayers and
requests from children
around the world. As an
Angel, she sent love.

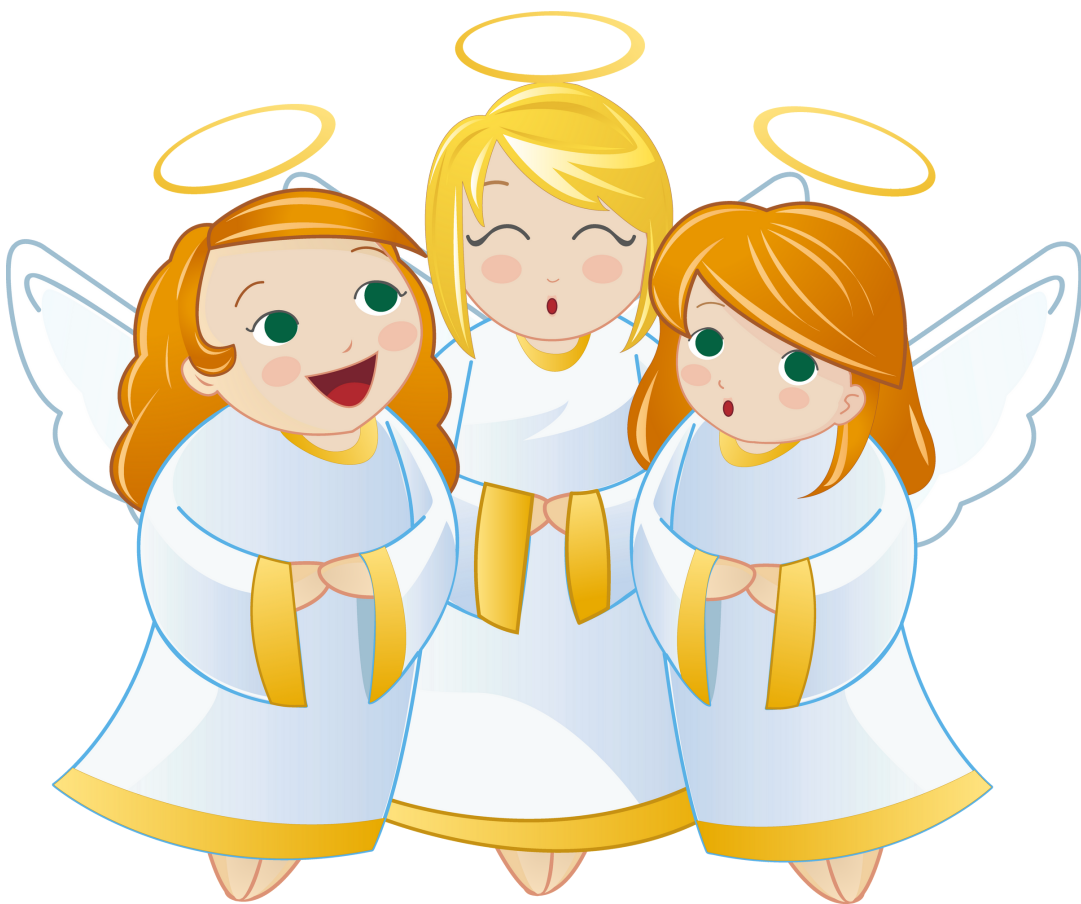

One day Annie told her
Mom about her dreams of
being an Angel and
sending love to the
children in the world.

Annie's Mom said that her
dreams sounded
beautiful, and that Annie
could send love to others
from her heart in her
waking hours as well.

“Just ask for your Angels
to protect you and look
after you, as you send
love to others.” Annie’s
Mom said.

Annie was happy her
Mom told her how to
send love in her waking
hours.

The next day she went
hiking with her friend Sue.

Sue told Annie that she was sad, because she was scared of getting lost.

Sue wished she was more sure of herself like Annie.

Annie told Sue not to worry. Annie would send her loving thoughts, and show her how to read the trail map.

Sue felt more confident.
They had a fun day of
hiking and talking.

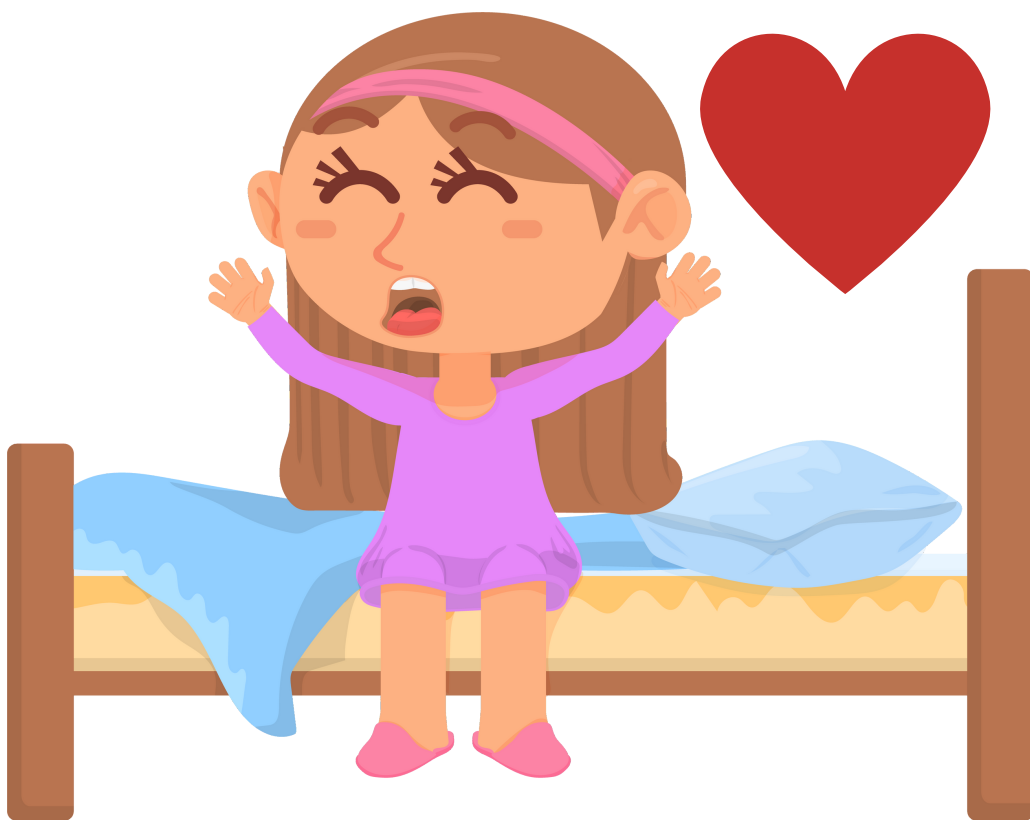

They also met up with
some friends who were
exploring.

That night Annie told her Mom how she had sent love to her friend, and how it made her friend and herself feel better .

“That is lovely,” Annie’s Mom said. “Now you can help people when you are dreaming and when you are awake.”

As Annie was going to sleep, she thought about what her Mom had told her, and how she had sent love and helped her friend Sue.

Annie understood that
she could be an Angel in
her dreams. She could
also be an Angel on the
earth.

From that day on, Annie asked for protection and love from her Angel family. And as an Earth Angel living on earth, she sent love from her heart to those she met.

Children have a lot to share with us. They have not yet been told what to do and how to think. Many children speak to us of spirits, past lives and magical stories from their imagination.

It is important to listen to what our children feel, think and hear.

We can send love from our hearts and blessings to others.

We can also ask for Angelic protection and love.

Children have the power within to connect to the Angelic realm and feel the love of All.
